Student Grants 2018

The Frog and Tadpole Study Group (FATS) of New South Wales is offering small research grants to students and academics who are working on amphibians in Australasia. The grants are for 12 months and are up to \$1,000 each. You can apply for more than one grant each year. You will be notified within four weeks of submission of the application regarding the outcome of the request.

Anyone interested in applying for the grants should contact myself by email 1arthur@tpg.com.au and seek an application form. The form is small and simple to complete. Applications can be made at any time throughout the year.

Successful applicants are asked to submit proof of expenditure of the money at the completion of the project and we also ask them to speak at one of our public meetings so that FATS' members can hear about their research efforts and results.

Good Luck

Arthur White
President
